SCIENCE AND CIVICS TEACHER WORKSHOP

HIGHLIGHTING WATER QUALITY ISSUES AND
SOLUTIONS

Wednesday, June 10, 2009
8:45 a.m. to 3:30 p.m.

Guest Speaker: Patricia Pennell, Raingardens.org

Project WILD and Science and Civics materials are provided free-of-charge by the ODNR Division of Wildlife.

Science and Civics: Sustaining Wildlife is a secondary curriculum for grades 9-12 sponsored by Project WILD and the National Wildlife Federation and focusing on environmental awareness, habitat exploration, participatory democracy and service learning through the collaboration of science and social studies teachers.

Each workshop participant will receive the *Science and Civics* Curriculum Guide and additional resources highlighting local water quality issues. Workshop activities will explore Start's Urban Watershed Habitat Project and demonstrate how to use wildlife habitats and rain gardens to inspire student success.

All *Science and Civics* activities have been correlated to the Ohio Academic Content Standards in Science and Social Studies.

Start High School
2010 Tremainsville Road
Toledo, Ohio 43613

Photo features Start High School rain garden.

*Dress to explore the outdoors and rainwater management features on site, including Shantee Creek.
